

UBRELVY[®]
(ubrogepant) tablets 50mg
100mg

**SERENA WILLIAMS
TENNIS CHAMPION
AND UBRELVY[®] PATIENT**

DID YOU KNOW?

UBRELVY CAN STOP MIGRAINE IN ITS TRACKS ANYTIME, ANYWHERE

In clinical studies, most people had quick pain relief and some even had pain freedom within 2 hours.

What is UBRELVY[®] (ubrogepant)?

UBRELVY is a prescription medicine used for the acute treatment of migraine attacks with or without aura in adults. UBRELVY is not used to prevent migraine headaches.

IMPORTANT SAFETY INFORMATION

Do not take UBRELVY if you are taking medicines known as strong CYP3A4 inhibitors, such as ketoconazole, clarithromycin, or itraconazole, or if you are allergic to UBRELVY or any of its ingredients.

Please see additional Important Safety Information throughout and click here or visit [UBRELVY.com](https://www.UBRELVY.com) for full Patient Information.

UBRELVY[®]
(ubrogepant) tablets

TREAT THE 3:10PM NO-EXIT-IN-SIGHT MIGRAINE ATTACK

Do you ever hesitate to take your prescription medication depending on where you are or what you're doing?

And if you wait to take it, does your medication still work?

67%

OF PATIENTS DELAY OR AVOID
USING THEIR PRESCRIPTION
ACUTE TREATMENT DUE
TO CONCERNS ABOUT
ADVERSE EVENTS*

AMONG THOSE PATIENTS*:

60% CLAIMED MORE INTENSE PAIN

59% CLAIMED EXTENDED DURATION OF HEADACHE

UBRELVY[®] can provide relief without having to worry if it's too late[†] to take it or where you happen to be. It can work even for those who haven't tolerated or responded to other commonly prescribed migraine medications.

*From a survey of 1,160 people living with migraine in the American Migraine Prevalence and Prevention Study.

[†] People took UBRELVY within 4 hours of a migraine attack.

IMPORTANT SAFETY INFORMATION (CONT.)

Before taking UBRELVY, tell your healthcare provider about all your medical conditions, including if you:

- Have liver problems
- Have kidney problems
- Are pregnant or plan to become pregnant
- Are breastfeeding or plan to breastfeed

Please see additional Important Safety Information throughout and click here or visit [UBRELVY.com](https://www.ubrelvy.com) for full Patient Information.

**SERENA WILLIAMS
TENNIS CHAMPION
AND UBRELVY[®] PATIENT**

THE FIRST PILL OF ITS KIND

UBRELVY[®] is the first acute treatment in a different class of migraine medications. It can quickly stop migraine pain and the most debilitating migraine symptoms in their tracks within 2 hours. Many had pain relief in just 1 hour.

NON-NARCOTIC PILL

WORKS FAST

In clinical studies, people took UBRELVY up to 4 hours after their migraine attack started. Now you can take UBRELVY without worrying if it's too late or where you happen to be.

IMPORTANT SAFETY INFORMATION (CONT.)

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements. Your healthcare provider can tell you if it is safe to take UBRELVY with other medicines.

Please see additional Important Safety Information throughout and click here or visit [UBRELVY.com](https://www.ubreivy.com) for full Patient Information.

STOP YOUR MIGRAINE ATTACK IN ITS TRACKS

Migraine is more than just a bad headache. It's excruciating head pain, light sensitivity, sound sensitivity, and even nausea.

UBRELVY[®] can provide freedom from migraine pain and debilitating symptoms within 2 hours. Many people experienced pain relief in as little as 1 hour.

PAIN FREEDOM
(ZERO PAIN)

**ABSENCE OF MOST DEBILITATING
MIGRAINE SYMPTOMS**
(LIGHT SENSITIVITY,
SOUND SENSITIVITY, OR NAUSEA)

PAIN RELIEF
(REDUCTION IN PAIN)

In clinical studies, the majority of people achieved pain relief, and 1 in 5 even experienced total pain freedom.

Plus, 2 out of 5 had absence of their most debilitating symptom within 2 hours after taking UBRELVY.

IMPORTANT SAFETY INFORMATION (CONT.)

UBRELVY may cause serious side effects, including allergic reactions. Most reactions happened within hours after taking UBRELVY and were not serious. Some reactions may occur days after taking UBRELVY. Call your healthcare provider or get emergency help right away if you have swelling of the face, mouth, tongue, or throat or trouble breathing.

UBRELVY WORKS DIFFERENTLY

Unlike older migraine medications that work primarily by constricting blood vessels, UBRELVY[®] directly targets a specific protein believed to play a major role in migraine attacks.

This protein is known as calcitonin gene-related peptide (CGRP), and it causes pain and inflammation when it attaches to sensory nerve endings.

CGRP ATTACHING DURING MIGRAINE

UBRELVY BLOCKING CGRP DURING MIGRAINE

UBRELVY is a CGRP receptor antagonist, which means it is **designed to directly block CGRP protein** from attaching to your sensory nerve endings.

IMPORTANT SAFETY INFORMATION (CONT.)

The most common side effects of UBRELVY are nausea (4%) and sleepiness (3%). These are not all of the possible side effects of UBRELVY.

Please see additional Important Safety Information throughout and click here or visit [UBRELVY.com](https://www.ubrelvy.com) for full Patient Information.

TREATMENT WITH FEW SIDE EFFECTS

In clinical studies, few people had side effects. The most common were nausea (2–4%) and sleepiness (2–3%).

**WITH FEW SIDE EFFECTS,
UBRELVY CAN BE TAKEN WHEN
AND WHERE YOU NEED IT.**

UBRELVY was also studied with other acute treatments for migraine, including triptans and treatments that prevent migraine. UBRELVY adds one more tool to help you manage your migraine attacks.

IMPORTANT SAFETY INFORMATION (CONT.)

You are encouraged to report negative side effects of prescription drugs to the FDA.

Visit www.fda.gov/medwatch or call 1-800-FDA-1088.

If you are having difficulty paying for your medicine, AbbVie may be able to help.

Visit [AbbVie.com/myAbbVieAssist](https://www.AbbVie.com/myAbbVieAssist) to learn more.

COMPLETE RELIEF IS POSSIBLE

Complete migraine relief is possible with one dose of UBRELVY[®]. Some people had zero pain and absence of their most debilitating symptom within 2 hours.

If needed, you can take a second dose of UBRELVY 2 hours after the first dose.

UBRELVY IS AVAILABLE IN 2 DOSAGE STRENGTHS

50 mg

100 mg

Talk to your healthcare provider about which dose of UBRELVY may be right for you.

UBRELVY comes in convenient On-the-Go Packs, so you can be prepared anytime, anywhere a migraine attack strikes.

Save on trips to the pharmacy by asking your doctor about a **90-day** supply. Also ask about the UBRELVY **16-count** pack!

Safety of UBRELVY for more than 8 migraine attacks in 30 days is unknown.
